

NOTES:

1. The County will furnish the project sign. Project sign will be picked up from:
Johnson County Public Works
1800 Old 56 Hwy
Olathe, Kansas
2. The contractor shall furnish and install sign supports as specified in this detail. The cost of installing and maintaining the project sign shall be considered an eligible project expense.
3. Project sign(s) shall be installed in a conspicuous location adjacent to the project site. The sign location shall be approved by the project administrator.
4. The project sign shall be erected by the project contractor prior to any construction activity.
5. The frame shall be 4"X4" preservative treated wood: primed and painted with two coats of white exterior house paint.
6. Anchor 4"X4" with two 3/8" lag screws and washer each connection(4).
7. Anchor sign with 3/8" lag screws and washer at four points.
8. Following the completion of the project, the contractor shall be responsible for returning the project sign to Johnson County Public Works.
